• **Introduction:**

Geologically Shendurni region is in draught prone zone. This area facing water scarcity problem severely, due to this during summer season water level reduces. The importance of trees has been known to us since ancient times. Living a tree is the greatest wealth and achievement (*Punya Karma*). Following the same thread of "**Eco-spirituality**". Team '**Garudians**' with principal, teaching and non-teaching staff, NSS volunteers and students of the institution have been accepted the challenging work to plant, care and nurture the of trees in and around campus from the beginning of this academic year (2018-19). All the members of the "Garudians" family are taking proper care of the adopted trees. Of course, this will make the trees in the college premises to flourish. The joy of seeing all these trees swaying in the rainy season will be something different experience.

- **“Tree Adoption Scheme”:**

A “Tree Adoption Scheme” has been initiated by the **NSS unit of Appasaheb R. B. Garud Arts Commerce and Science College Shendurni Tal. Jamner, Dist. Trees in and around the campus have been planted and fostered by teaching and non-teaching staff, NSS volunteers and students of the institution.

The Foremost objective of the scheme is to increase the green campus and also to involve the teaching and non-teaching staff, NSS volunteers and students of institution in protection. To ensure involvement of this beneficiaries, it is essential to develop a system wherein the people get the concrete and insubstantial assistances in a continued manner. After the plantation of trees, the care-taker properly nurtured the tree and initiated in development of green campus. **Total 60 trees have been planted** and fostered successfully in and around the campus.
